DETAILED ACTION

Response to Amendments

1. This is in response to the Amendments received on May 03, 2004. The Amendments to the Specification, Drawings, and claims 1, 4-6 are acknowledged.
2. Claims 1-12 are currently pending in this application. Claim 12 has been newly added.
3. Claims 8-11 have been withdrawn from further consideration as directed to a non-elected invention, in the Paper of September 29, 2003.

Specification

4. In view of the prior Office action of December 02, 2003, the objections of the abstract and disclosure have been withdrawn due to the Amendments made thereto.
5. The amendment filed May 03, 2004 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material, which is not supported by the original disclosure, is as follows: The drawings and Brief Description of the Drawings, which are not disclosed in the specification as originally presented.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

6. In view of the prior Office action of December 02, 2003, the rejection of claims 1-7, under 35 U.S.C. 112, first paragraph, has been withdrawn due to the Amendments made thereto.

Art Unit: 1711

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

8. Claims 1-7 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite because it is unclear to the examiner as to how the polyurethane or polyamide sheet layer, the adhesive, and the thermally molding resin layer are structurally related to the protective layers and the polarizer sheet layer. A clear description of these elements and their structural relationships is required.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Art Unit: 1711
